HONORARY RESOLUTIONS/PROCLAMATIONS

County Executive Walsh announced, moving on to Honorary Resolutions and Proclamations. Member Dralle please come forward and present the Proclamation declaring September as National Alcohol & Drug Addiction Recovery Month.

Member Dralle stated good morning everyone. To you we will be issuing a Proclamation Declaring September as National Recovery Month and I have four individuals that I have here today that I would like to introduce. First, I would like to introduce Mr. Tom Connolly. He is the MC for the September 17th Rally Around Recovery Event. I understand that he is a writer, an actor, and a comedian. Also attending is Mr. Robert Snipes, President of the Southwest Coalition for Substance Abuse. Behind me, Mr. Peter McLenighan, Executive Director of Stepping Stones and Mr. Paul Lauridsen, Clinical Director of Stepping Stones. The Southwest Coalition for Substance Abuse Mission is to maintain a network of publicly and privately funded treatment in community based prevention providers, often the highest quality available. We all know that wherever it is present, substance addiction can destroy individuals, families and communities. But through entities such as the Southwest Coalition, there is hope, support, treatment, and recovery for individuals caught in this web. Recent statistics provided by Will County Coroner Patrick O' Neil showed that in 2010 there were 48 Will County deaths from accidental overdose with 19 deaths from heroin overdose, and 5 deaths due to combination of cocaine and heroin. State's Attorney Glasgow is all too aware of this with the Drug Court, Juvenile Drug Court and Adult Drug Court, the problems that we have with heroin currently. I have to thank him for his support and the programs and everything that Will County State's Attorney Glasgow does. There is good news in all of this. There can be something positive and that is that in 2010 there were 20 fewer deaths from overdose then there were in 2009 and I would like to attribute this mostly to the many treatment and recovery programs that we have in Will County. On your desk is a flyer for September 17th that talks about Rally Around Recovery that will be held at Bicentennial Park, I have gone for a number of years and it is a great event.

Member Dralle presented the Proclamation for Declaring September as National Alcohol & Drug Addition Recovery Month.

PROCLAMATION

DECLARING SEPTEMBER AS NATIONAL RECOVERY MONTH

WHEREAS, research shows that substance addiction is treatable and people should seek assistance for these conditions with the same urgency as they would any other health condition. Thus, it is essential for the 22.5 million people aged 12 or older who currently suffer from a substance use disorder to realize that recovery is possible; and

WHEREAS, to build on that encouraging message, this year’s **National Recovery Month** theme is **“Join the Voices for Recovery: Recovery Benefits Everyone.”** The 22nd national campaign spreads the message that behavioral health is an essential part of one’s health and wellness. Prevention works, treatment is effective, and people can and do recover from substance use disorders; and

WHEREAS, in 2009, 4.3 million people aged 12 or older received treatment for substance use disorders according to the 2009 National Survey on Drug Use and Health. We need to recognize those who have achieved long-term recovery and share with others how recovery benefits society as a whole; and

WHEREAS, Recovery Month works to improve the lives of those suffering from substance use disorders and raises awareness and educates communities about treatment and recovery resources that are available.

NOW, THEREFORE, BE IT RESOLVED, that the Will County Board and the Will County Executive hereby proclaim the month of September 2011 as **National Recovery Month: Prevention Works, Treatment is Effective, People Recover**, in Will County and call upon the citizens of Will County to observe this month with compelling programs, activities and events that support this year’s theme, **“Join the Voices for Recovery: Recovery Benefits Everyone.”**

BE IT FURTHER RESOLVED, that the Will County Board and the Will County Executive encourage us all to educate one another about the issues surrounding addiction, treatment, and recovery, learn how to help those who are suffering, and access available resources in our communities and online.

Member Dralle made a motion, seconded by Member Rozak, to approve Proclamation Declaring September as National Alcohol & Drug Addiction Recovery Month.

Voting Affirmative were: Bilotta, Adamic, Deutsche, Howard, Singer, Laurie Smith, Weigel, Dralle, Hart, McPhillips, Kusta, Maher, Traynere, Argoudelis, Goodson, Brian Smith, Gould, May, Rozak, Konicki, Zigrossi, Brooks, Stewart, Winfrey, Babich, Wilhelmi and Moustis. Total: Twenty-seven.

No negative votes.

PROCLAMATION DECLARING SEPTEMBER AS NATIONAL ALCOHOL & DRUG ADDICTION RECOVERY MONTH IS APPROVED.

Member Dralle stated there are two individuals who would like to speak.

Mr. Tommy Connolly stated I am an addict and an alcoholic. On behalf of addicts in recovery, I want to say thank you to all of you guys. I have to tell you on a personal note, it is wonderful to be invited to an official County Building without a Subpoena. On a more personal note, I am a lifetime Will County boy. I grew up in Mokena and I have lived in New Lenox, Joliet, and now in Plainfield. I suffered addiction both alcohol and drugs for 28 years. I am now sober and in the last couple of years, I have been able to recover my self respect and my dignity, my family and I have been lucky enough to find an acting career and write a book about my experiences in alcoholism and recovery. I have been both homeless and a highly functional addict. I have also been able to go into Stateville Prison and work with "Comics for Convicts", going around the state telling people about hope in recovery. Hopefully soon I will be joining Will County Detention Center doing recovery meetings there. I am a very grateful, grateful addict. I should be dead. Addiction wants you dead but will settle for you high and I am very grateful for your support for helping us in Rally Around Recovery and all of the things that you guys do in helping us in the month of September. Addiction doesn't care if you have dollars or dust bunnies in your pocket. It is the most perfect democracy and it will get any of you and it touches everybody whether you are the addict, family member, or the friend. It is like a tornado and rips through everybody's life and I am very grateful to be the MC of this event, and I am very grateful to be sober. I am very grateful to all of you for supporting this; this County is really really great about helping people with an addiction and I thank you all very much.

Mr. Robert Snipes stated I am President of the Southwest Coalition and on behalf of the organizations that provide both prevention and treatment in our area; I too want to thank the Board, Executive Walsh, and State's Attorney Glasgow. This County has some of the best programs that I am familiar with in the state and in the country. A special thanks to Executive Walsh for establishing a Commission to explore what the County can do to help reduce those accidental deaths as a result of heroin overdose and the work that you are doing here. Thank you very much.

Member Dralle stated thank you Mr. Connolly for being here and for sharing with us the hope of your recovery that you have experienced. And I do encourage everyone to come out on September 17th, it is a wonderful event that celebrates recovery. Thank you.

Executive Walsh asked Member Adamic to please come forward. We have a wonderful Proclamation recognizing our Joliet Junior College Culinary Team Winning 1st Place in the American Culinary National Cooking Competition.

Member Adamic joked I second the motion for samples (inaudible). It gives me great pleasure that we can honor a great institution in Will County. Will County is full of champions and champion schools and colleges and so forth. But it was a deadly heart that we hear of the passing of Dr. Gena Prouix, President of Joliet Junior College so I would ask that you keep her in your prayers. Today I have with me Board Member, Ms. Susan Marie Klen; Ms. Valerie Roberson, Vice-President of Economic Affairs; Ms. Tammy Rust, Vice-President of Administrative Services; Chef Mr. Michael McGreal, Culinary Arts and Hospitality Management Department

Chair; Chef Mr. Kyle Richardson of New Lenox Coach; Chef Mr. Tim Bucci of Oak Forest-Coach; and Chef Ms. Suzette Simpson of Bolingbrook-Assistant Coach. The Culinary Arts Hot Foods Team Members are Mr. Robert Belanski of Plainfield-Team Captain; Mr. Aaron Guajardo III of Joliet-also the American Culinary Federation's Student Chef of the Year; Ms. Laura Korte of New Lenox; and Mr. Michael Shannon of Plainfield. Thank you all for being here.

Member Adamic presented the Proclamation of the National Cooking Competition.

PROCLAMATION

HONORING THE JOLIET JUNIOR COLLEGE CULINARY ARTS HOT FOODS TEAM

WHEREAS, it is the intent of the Will County Board and the Will County Executive to recognize outstanding achievements of individuals and organizations in Will County, and

WHEREAS, the Culinary Arts Hot Foods Team from Joliet Junior College, the nations' first community college, recently competed in the American Culinary Federation Championship Finals in Dallas, Texas, and

WHEREAS, the four-member team placed first in its second visit to the finals competition, and the Hot Foods Team won the gold medal in the regional competition held in April in New Orleans, and

WHEREAS, a Joliet Junior College student also was named 2011 American Culinary Federation Student Chef of the Year, and

WHEREAS, Chefs Kyle Richardson of New Lenox, Chef Tim Bucci of Oak Forest and Assistant Chef Suzette Simpson of Bolingbrook led the team in preparation for the competition through many hours of practice, and

WHEREAS, Joliet Junior College's culinary and food service training program began in 1969 with 12 students and now is the fourth oldest school of its kind in the United States, and

WHEREAS, this accomplishment can be attributed to the commitment and hard work of Hot Foods Team members David Basile of Peotone, Robert Belanski of Plainfield, Laura Korte of New Lenox, and Michael Shannon of Plainfield, and ACF Student Chef of the Year Aaron Guajardo III of Joliet.

NOW, THEREFORE, BE IT RESOLVED, that the Will County Board and the Will County Executive hereby congratulate Hot Foods Team Members David Basile of Peotone, Robert Belanski of Plainfield, Laura Korte of New Lenox, and Michael Shannon of Plainfield on being named the top culinary team in the United States, and Aaron Guajardo III of Joliet on being named ACF Student Chef of the Year.

BE IT FURTHER RESOLVED, that Chefs Kyle Richardson and Tim Bucci and Assistant Chef Suzette Simpson be commended for this distinguished honor.

DATED THIS 18th DAY OF AUGUST, 2011.

NANCY SCHULTZ VOOTS
WILL COUNTY CLERK

Member Adamic presented the Proclamation of the National Cooking Competition.

Member Adamic made a motion, seconded by Member May, to approve Proclamation of the National Cooking Competition.

Voting Affirmative were: Bilotta, Adamic, Deutsche, Howard, Singer, Laurie Smith, Weigel, Dralle, Hart, McPhillips, Kusta, Maher, Traynere, Argoudelis, Goodson, Brian Smith, Gould, May, Rozak, Konicki, Zigrossi, Brooks, Stewart, Winfrey, Babich, Wilhelmi and Moustis. Total: Twenty-seven.

No negative votes.

PROCLAMATION OF THE NATIONAL COOKING COMPETITION IS APPROVED.

One of the members stated thank you very much for this honor, I am actually here as the "helper" to the team because this is actually the team that won; Chef Suzette, Chef Tim, and Chef Kyle. It was an amazing competition, amazing efforts that they put in over this last year and really since they began at Joliet Junior College working with our teams. To see them compete against the school that is thought of as the Premier School of the Country, the very 1st Culinary School in the United States and they beat them and actually they took 3rd in the competition for the National Title, the 1st time competing and Joliet Junior College beat the school that is thought to be the best forever. Very exciting. The restaurant industry is actually the 2nd largest employer in the country next to the Federal Government and we have 13 million people employed in the restaurant industry in the United States and in the next decade they are projecting 1.3 million brand new positions on top of the 13 million that are already existing. And a lot of those will be in Will County. So we are very fortunate to be supported with the referendum and our new culinary facility which will be going up in downtown Joliet and we know with that there will be some great businesses, great partnerships with the community and supporting food and beverage and hospitality in our County. Thank you very much for supporting us and helping Joliet to become the number one (1) school in the country and Will County having the number one (1) school in the United States. Thank you.

Member Weigel presented Resolution #11-260, Designating DuPage River Confluence A/K/A "Fork" A/K/A Confluence Preserve and Rivercrest Estates Park as a Historic Landmark (Denied by Land Use 0-5-1). The Committee recommended denial on this but the Historic Commission did vote on this and they approved it 4-3, so it was a close vote. The staff had recommended a non-approval on this. We did have surveys of the soil there by the University of Illinois and they did not find any significant artifacts and did not recommend Landmarking this. I will make a motion for the approval but will ask that you vote no on this. We will probably need a roll call on this.

Member Weigel made a motion, seconded by Member Bilotta, to approve Resolution #11-260.

Member Moustis stated before we start this discussion and take comments, I know there is a lot of temptation when we talk about the 95th Street Bridge but we are really here to talk about the historical designation of this piece of property so I would hope everybody would keep their comments to the historical designation and let's not get into a big debate about a bridge.

Member Traynere stated good morning Executive Walsh and County Board Members. I live in Bolingbrook and have been there since 1970 and have seen the town grow from a little farm community basically to a wonderful lovely village with many types of different homes and housing. The property for the most part has lost all of its historical character. Our old barns are gone, our farms are gone, and there really is not much left. At some point, and I don't know the specific history, someone decided that the Boughton Family was important enough to name 87th Street, Boughton Road. So we have some small reminders in our community of some of the people who were there before us. I view this historical designation as an opportunity to put out another type of reminder of who came before us and who had settled in that area and helped create the community that we now have. I did go to the hearing on the historical significance vote and was happy to hear all of the participation of many different residents both pro and con. I will actually be voting in support of this, I don't feel that this is going to have any impact down the road, that is my understanding, and I do think that it is important to remember our roots and our history. Thank you.

Executive Walsh stated we do have some people that did sign up in the County Clerk's Office to be on the agenda today. So what we will do is give them the opportunity to come forward and speak. Let's try and have new information, not repetitive comments. With that, our 1st speaker will come forward and that is Mr. David Bond. Let's try and keep our comments down to two or three minutes, if we can. The next speaker that will be coming is Ms. Amy Hartline, so if you could get ready to speak.

Mr. David Bond stated his name and I live at 238 Clifton Lane in Bolingbrook. As you all know, by this point that I submitted a landmark nomination to the County based on the information that we know about the piece of property in question. As it was already stated, the Historic Preservation Commission voted to approve it and the Land Use Committee voted against it. Now, I am not going to give you a history lesson today; I am not going to go through all of the different merits specifically of the property in detail because most of that has all been documented and it is on record if you would like to look it up. What I would like to do however, is to discuss probably one of the most important merits of the nominated site, and that is the fact that on the property, there are two different known significant archeological sites. Initially in 1991 when they were

discovered, it was determined they should go back, there was enough there to go back and do phase II, further investigations. So in 1994, Allied Archeology led by Mr. Douglas Cullen went in and did a thorough investigation of the site and produced this report that I have here in my hand today. Now, Mr. Cullen determined that the site was not only qualified for the National Register towards places but it was also valuable enough to be considered significant. In other words, a potential learning could take place here. It yielded valuable information about archaic history and it is likely to yield. Of course, this is according to his words. Since that time in 2004, another investigation, a minor investigation was done there and again in 2010 a third investigation was done. I have here with me, the results of the 2010 investigation. The interesting thing about it is that the 2010 information seems to completely contradict what was found in 1994. To quote the Archeologist, I will give you his own words, he says, "It is our opinion that site 897 is not eligible for the National Register, no further work is recommended and this corridor should be cleared for construction." That seems to completely contradict what we found in 1995. So that made me curious and I called the archeologist that performed the work in 1995 and talked to him at length about this. Thinking that maybe he could tell me what the differences were between the two. What I discovered was that in 1994, Mr. Collins performed an entirely different type of investigation than they did in 2010. What they did was they went in and they hand dug 74, they gridded off the area, hand dug and sifted through 74 different test locations in that site. They made a point in his report of stating that nearly 90% of all of the artifacts that they found were all found underground, undisturbed. The point is that it was not found on the surface in the plow zone. In the investigation that took place in 2004, they only did control of surface collection, they did not do any underground work at all. In 2010, they did do some underground work, but they did not do any hand digging, they brought in a back hoe and blade and they scraped away a little bit at a time. They didn't find much, they covered it back up and said "you know what, it is all clear". The stark problem with this report in 2010, and I have the unfortunate distinction of being the one to tell you, that even though this report says that the site is not significant; it is not necessarily eligible for the Register of Historic Places; you have been vastly and drastically misled. And the reason why I am telling you this is because by the archeologist's own words, when the archeologist went in 2010 to do their investigation, the known area of the site is 9,226 square meters. They investigated a total of 940 square meters, that represents 10% of the entire known archeological site. To give you a good example of what 10% is like, I brought this wonderful visual aid (a paper plate). The white area represents what we do not know about this site. In 1995, the archeologist, a well qualified archeologist mind you, told us that the site is not only eligible for the National Register, but it holds significant information. Not only now but for in the future. Mr. Douglas Cullen, the man in charge of the two investigations in 1991 & 1994 has 30 years of experience in North American Archeology. He holds a Bachelor of Arts in Anthropology from Northern University and a Master of Arts Degree from the University of Chicago. His main areas of interest are Geoarcheology Prehistoric Settlement in pipe patterning paleo-environmental reconstruction and, he has a wide range of geographical experience, spanning the Continent from the Great Lakes to the Midwest regions to the high plains to the rocky mountains and Alaska. Within these areas he has organized and managed hundreds of small and large scale archeological projects including surveys, test excavations and data recovery. For all sites and all time periods in a variety of topographic settings. He has offered hundreds of technical reports for phase I, II, and III projects as well as a number of articles in regional journals. He regularly presents papers at state regional and national archeological meetings, he belongs to several professional organizations including the Illinois Architectural Survey that I asked Colorado Counsel of Professional Archeologists in this society for American Archeology. This man is, by no means, an amateur.

Executive Walsh stated let's bring this to a close.

Mr. David Bond stated yes sir, absolutely. The point is that, part of the contention, the denial, the reasons for one to deny the approval of this nomination is based on faulty information and an incomplete investigation. We know that this site is more valuable in that and in fact this is what the Archeologist said in 1995, "The phase II testing of site 897 has documented that the site possesses a difficult integrity which enables it to be considered for listing on the National Register of Historic places. The site while located in a cultivated field contains undisturbed sun sub plow zone cultural deposits, the physical integrity of these deposits is good with nearly 9% of artifacts recovered from the site having been found (inaudible), cultivation has not writ the effect of the facial distribution of those artifacts, etc." He then goes on to say, this is the important part, "the association of Fox Valley Point," now this is going to sound confusing for a second, "the association of Fox Valley Point with previously undefined undated site point types have developed a new guide, this site represents a new guide by which other things can be judged and prepared and evaluated and identified." So this is not just a random thing, this is actually, literally, a very valuable site in every aspect of the word.

Executive Walsh stated let's bring your comments to a close, please.

Mr. David Bond stated yes sir, absolutely. One other thing, in the two previous hearings to today, a representative from Forest Preserve District was there and I can't give you his name exactly because I don't remember everybody's name here, I am sorry. The point is that they made it very clear that they don't have an objection to the nomination, they are the primary property owner that in the Naperville Park District, so they made it clear that they don't necessarily object to it although, it doesn't further their cause. Now on the other hand, the County wants to develop that property and they are committed to a half of a \$33 million project on it. Now, what this represents is a conflict of interest because the County Board and the Forest Preserve Board are one in the same. In other words, the same people are being faced with a decision, their duty on this job versus their duty of the other job.

Executive Walsh stated please, this is your final, I have asked you twice now to bring it to a close. Please. We have other people to talk, sorry.

Mr. David Bond stated yes sir, absolutely. When conflicting interests have the potential to interfere with duty that condition is sufficient to create a conflict of interest by definition. Black's Law dictionary describes conflict of interest as being in connection with Public Officials or fiduciaries and their relationship to the matters of private interest or gain to them in situations where regard for one duty tends to lead to disregard for another. But technically speaking, conflict of interest is not limited only to matters with personal gain, therefore the Illinois Supreme Court interpretation is much broader. They have proclaimed that any interest that prevents or tends to prevent a Public Official from giving the public that impartial and faithful service, which he is in duty bound to render and which the public has every right to demand and receive. Furthermore, according to the State's highest court, an office holder's undue bias is prohibited even though he or she may not derive any direct benefits from it and even though there may have been no intention of it (inaudible). Such an indirect interest is any that would naturally tend to affect a Public Official's judgment in the future for voting capacity. That being said, in light of the magnitudes of the decisions that could be potentially made here today; it is the opinion of the

people of Will County and it is my civic duty to formally request that any and all members of the Will County Board that also serve on the Forest Preserve Board recuse themselves from the landmark nomination voting procedure today. If this results in a lack of a legally viable voting forum, we respectfully request that the previous decision of the Will County Preservation Commission be upheld and the nomination be approved by their authority.

Executive Walsh stated thank you for your comments. Member Adamic do you have a question for this gentleman?

Member Adamic responded no, more of just a comment. It has been my understanding; I appreciate history just as much as anybody else. If you take any parcel in this Country or this land, there would be something historically significant about almost anything and what do you do with the stuff once it is there. Some other comments, the Forest Preserve, as I understand it bought that land there with the intent that one day they knew a road was going to go through. To preemptively, accuse us of a conflict of interest, you don't know how we are going to vote (inaudible). So I take exception to some of those comments.

Executive Walsh announced next is Ms. Amy Hartline, the next person after that is Ms. Robin Ohr, is Ms. Robin Ohr here?

Ms. Hartline responded Mr. Ohr was unable to attend today. He is one of the residents directly impacted on his property. But he could not take off of work, due to the timing of this meeting.

Executive Walsh stated please state your name and address and I really have to ask you keep your comments to a minimum.

Ms. Hartline responded I will brief and to the point. Thank you everyone for listening. My name is Amy Hartline and I am a resident of Bolingbrook and I reside on Ashcroft. I border the area of the parcel of land that is being nominated the Dupage River Historic Landmark Status. I have been a resident for well over 12 years and I am not directly impacted as other neighbors are so I don't border the area so I don't have a personal interest but I do have a personal interest in the site and why it is being nominated for a historical landmark. I am here representing a family and a parcel of land and a property that is adjacent and borders, backs up to the historic Dupage River and the Will County Forest Preserve. It is basically close to Kings Road at the north and close to the land in question. The Dupage River and adjacent natural landscape is extremely crucial to the history of Will County and Bolingbrook for many reasons. The very vital historical land or piece of land, because it was formed in 1839 by the Cook and Dupage Counties, it took its name from the Dupage River which in turn is historic in itself. It was named after a French Birdtrapper, this historic address and the name in 1882 the historic history of Dupage County, Illinois (inaudible). It relates to the Dupage River from basically a stream well known, it took its name from the French trader who settled in the stream, well back into the 1800's. This area when in question, Dupage River, King's Road North, common name site 11W8297, this land is not just a place for cars to drive over. I can't stress that enough. This area is a sanctuary of history, wildlife, and nature. There are White Tail Deer, that call this exact piece of land home. There are Red Tail Hawks that roost in the trees that boost, and I am not just a "tree-hugger". I am not in that particular genera, but there are a huge impact, not only for the residents that the land is very narrow, there isn't room for lanes to go through but you also have the sanctuary of nature that is

usually going to be impacted. We already have a bridge a quarter mile in this direction and we have a bridge a quarter mile in this direction. I drive one of the roads regularly; we don't have issues with traffic.

Executive Walsh stated ladies and gentleman please, let's show our respect to the speaker please.

Ms. Hartline responded thank you Executive Walsh, I appreciate that. I just basically want to tell you that you may live close to your neighbor and you may not see these animals daily but they are there. This is their home, it is a very small parcel of land, we don't need the bridge. If there was a need for a bridge, I would be the first one because I commute in and out of that area to my job, which is almost an hour away.

Executive Walsh stated excuse me Ms. Hartline but the bridge issue is not what is to be discussed.

Ms. Hartline responded okay, I will go back to the topic that is at hand.

Executive Walsh replied you talk about the artifacts, the bridge is not an issue.

Ms. Hartline responded understandably. The artifacts as what were addressed earlier, those do not change. There were artifacts that were discovered on a very small percentage of the property, but I do feel that more investigation needs to be done rather than just saying, it is a done deal, it was done 20 years ago. Let's just call it a day and be done with it. I don't think the status quo of just doing that is acceptable. Personally there are residents that border the property that were promised a wall, not getting a wall. They were promised this, this won't happen and there is a huge impact in the community. The nature is impacted, the traffic will be impacted, you are basically building another roadway that isn't needed and there is over millions of dollars that could be used in other areas in our County Government so I appreciate if you would definitely consider the proper use of the funds into an area that can be utilized. Thank you very much.

Executive Walsh stated thank you very much for your comments.

Member Hart stated I just have an all around question. As you know I am new to the Board and still learning but I am not new to land acquisitions and impact of development, so my question is and I apologize but I should have went to Committee and asked these questions but maybe this would be good to educate everyone. When we develop do we always have the (inaudible) come in and (inaudible) do the digging, do they come in and evaluate these soils, do they always do this?

Executive Walsh stated Member Bilotta, do you have a comment for this?

Member Bilotta responded maybe I can help answer this question, if not Mr. Bruce Gould could probably elaborate on it. Because this is a road project in the works for probably 15 years, part of the (inaudible) process to do a big project like this because we are using federal dollars, you have to follow a steeper process which addresses the environmental issues as a historical preservation, cultural resource clearance, archeological surveys, air quality surveys, biological surveys, major species, things like that. Yes, back when it was originally done, I believe 1995, the

original phase I, phase II; there could be some historical significance there. Thus, we are going to make you guys, I will call that phase II which will mean dig and actually see what is there, you are drilling though and digging and seeing if there definitely is something that warrants a true preservation of that site. Once the digs were done, which they were done by the University of Illinois from the Archeological Program in conformance with the state and federal regulations they gave us an all clear, saying no there is not enough there to warrant that. That is why the digs were done.

Member Hart responded that many times they kept on coming back? I guess where I am also going, my second tier of this is, who is paying for that? Every time these guys come back?

Member Bilotta replied the County paid for that.

Member Hart asked are we getting requests by the residents to have them keep coming back?

Member Bilotta no, in 1995 when the site was first done, basically the (inaudible) of phase I is something that you look at the overall idea maybe, the overall area and say it could have some historical significance so we are going to warrant the phase II. The phase II is actually the digging part and then if there were some things of significance there or artifacts there, the project would have stopped. We would not have gone any further with anything else.

Member Hart asked so this just becomes a better form of (inaudible) up the different ones that are digging, I am just trying to get a grasp on it.

Member Bilotta responded we are following federal and state guidelines, if they said yes there is a historical significance, there are artifacts there that deemed to be in the way of this bridge project, that is the only reason why we did it. And then we would not have gone any further. They gave us an all clear on this, or we would have moved it or not do the project.

Member Hart stated I have never heard of anything I was just being..... This is my backyard, I live a mile away from there and I am a runner and I go by it all the time. I guess I am just not seeing it. I am just seeing it as more of an excuse.

Executive Walsh stated thank you, good comments. He called Mr. Geno Vallente to come up and speak.

Mr. Geno Valente stated my name is Geno Valente and I live at 3443 Keller Lane, that is the north side of Will County but yet still apart of Naperville. I back up to this property, not exactly one of the residents who will have a wall in my backyard. I am maybe a ½ of a mile away of where the road would go but I am the Vice-President of the Subdivision of which this road goes through and I represent about 141 homes, 200 taxpayers in Will County who have all asked me to come here and speak to you today. I can supply a petition if you need me too, to prove that later.

Executive Walsh stated again Mr. Valente, we are talking about the....., not the bridge, not the road, that decision has already been made.

Mr. Valenta responded yes, I am here to talk about this, although many of the arguments don't against it. I would ask also about, I will keep this under three (3) minutes and 20 seconds if at all possible. And many of you know why I just said that. Let's look at the history, the Historic Preservation Committee looked at this property and voted 4-3 in favor of preservation. Let's remember there are two (2) distinct plots in this area, not one (1), two (2). The 2nd survey in 2010 only looked at one of the two (2), yet you are voting both. Your vote today is on two (2) distinct plots in which you have no information about the 2nd one (1). Why? I don't get it. That is why I am here today. I am asking you to look at both properties in its entirety and with the information of which you know. And you may know something a little bit more about what is under the top soil but only of one (1) of the properties. What you know about what is under the top soil in the rock in the second property is significant, according to the Archeologist that looked at it. In addition to that I found out on Monday that there may or may not be a new detention area being built on top of that second property. So sometimes I have to bridge the gap between a road and not. I am not talking about the road. I am talking about a detention area that is being built and recommended by the core of engineers that is an acre in size and would destroy the entire second property, which you are here to vote on today. That is new information, that is why I am here. No one seems to get that. Everyone seems to look at, oh it is one (1) property and we will just look under where this potential project might go, but that potential project is not just a road. That potential project destroys acres of wetlands that has been deemed by archeologists in 1995 to be significant enough to qualify for the National Register. And I ask you, do you have enough information to make that. Well the Historic Preservation Committee did. They believe through their knowledge that they understand what happened in this property because they are experts in history. They voted 4-3 in favor of historic preservation. I attended the Land Use Committee Meeting and was insulted by the way it happened. I wish you would have been there and told people that their job was to vote on history because all of the ordinances were about the road. This is not about the road. This is about historic preservation of two (2) sites and everyone that I have talked to completely ignores the second one. And it is the one of significance and this project will put a detention area in it. Last time I checked to build a detention area, you need to dig down. And guess what, you probably dig down below the top soil line to do that. And that is where all of the undisturbed artifacts are at. But we didn't do a survey over there; we looked over here, in the exact spot the '95 survey said it was under the rock. There is nothing in the dirt, they scraped off the dirt, they looked and there is nothing there, they put the dirt back. Did anyone pick up rock to look underneath it? They did in 1995 and they did not in 2010. The gentleman who spoke earlier said 10% of the property, one of them has been completely ignored. That is why it has taken 20 years to make this decision. Somebody just wants to look under the road. And no one cares that a core of engineers has recommended that well there is wetland, there is these other things, there is all this new stuff. In addition to that, they approached our community that now they need to acquire new property. Will County taxes one (1) acre of South Naperville at one million dollars per acre. There is dirt lots there, I use to own one (1). \$100,000 per 1/3 acre is the taxable liability three (3) times that in value. That means whatever land needs to be acquired has a value of approximately one million dollars and if someone wants to buy that land from our community, I will use that argument and that I am being taxed by the square foot of dirt at a million dollars per acre. So I don't know what the budget of this program is, but if you want to go by two (2), three (3), four (4) or more acres, your County already decided that, that property value is a million dollars an acre. So is that in the budget? Well I don't know. My argument is simply this, three (3) minutes and 20 seconds into this argument, I could have driven from Plainfield/Naperville Road and 95th Street to Kings Road and Boughton at rush hour yesterday and I have posted that U-Tube video and sent you a link of it. Watch it. This road is not

necessary, this entire project makes no sense and is a waste of taxpayers' money and oh by the way, puts a road on top of a Historic Landmark and completely ignores the second facility which has been designated to be recommended for Historical Landmark. Your vote today is on history. Please vote with history. All the arguments against it are for the road, all the arguments for it are there is something there. Thank you for your time, three (3) minutes and 20 seconds.

Executive Walsh stated thank you very much (applause). I see no other speakers, any more discussion?

Member May stated can I ask if the staff could come up and explain why they believe it is not a Archeological Site, can they explain what they found and what they did not find? Because I am hearing these conflicting things (inaudible)

Executive Walsh asked for Land Use Staff to come forward; Mr. Curt Paddock, Ms. Amy Monroe, Highway Department staff; Mr. Bruce Gould or all of you.

Mr. Paddock stated Member Hart talks about the opportunity this represents for a little bit of education and let me just give a little bit of a grasp of a teacher for a moment here. I think it is important to realize that you need to make a distinction between a process related to National Historical Register Landmark and the regulatory process necessary to establish that and the process that exists under County Ordinance for the establishment of a County Historic Landmark. The process that you have heard described that has been undertaken to satisfy various state and federal regulations in connection with the construction project is relevant but it is in connection with an entirely different landmarking process than the subject matter that is before you today. The subject matter that is before you today is solely, did this particular project meet the criteria stipulated in the County's Ordinance for a Historic Landmark. When the application was received, like all applications for County Historic Landmarking our staff, Ms. Amy Monroe reviewed the matter in connection with the criteria established under this County Board's Ordinance. Ms. Monroe, could you now speak to the specific question of why it is that when the County Staff made its recommendation to the County's Historic Preservation Commission, why we made a recommendation that it did not meet the criteria stipulated in this County Board's Ordinance.

Ms. Monroe stated good morning, thanks for your time and I will try to be really brief here. Essentially why staff recommended denial of the landmark designation was due to the lack of physical evidence of significance. When staff reviewed the nomination, staff consulted with the state archeologist who conducted the most current survey, or excuse me the office. I did pose the question as to what really makes the archeological site unique and what would merit National Register eligibility. There is a difference between potential, which is what the site was identified initially as and something that would be clearly eligible. In looking at the criteria that were presented for uniqueness, what happened was there are just types of artifacts that would make a site distinctive so you might find arrowheads on a farmfield across Illinois, you could take any site but then on other sites you might find something like animal bones, some sort of cemetery establishment, fire pit remains. Those would be artifacts of significance. Here at the site that is before your review here today, those types of artifacts were not discovered. Part of this is due to the soil turn over with plowing and such but at this point staff just really felt that the absence of any sort of significant Native American remains also the absence of Farmstead Buildings relative to the Boughton Family and also any sort of artifacts related to Scott's settlement. Their absence just really..... staff felt that integrity of the site, did not have any sort of historical association. Yes,

the history is important, the historic preservation is largely due to physical evidence so that is really what the dialogue during the hearing was about and probably lead to the 4-3 vote by the Commission. I am not sure if that answers the questions that have been asked but I would be happy to address them.

Executive Walsh asked does that answer your questions Member May?

Member May responded yes.

Executive Walsh asked Mr. Bruce Gould if he wanted to make a comment?

Mr. Bruce Gould stated good morning everyone. There were a couple of comments made about the two (2) sites and I want to make something clear. Our study only included site number W11 and W1897 in our study. The reason we did not include the other site is because we avoided that site on our project. So we have done no arch analysis on that one. Member Bilotta explained a little bit about the study that was done in 1995 but I would like to shed a little bit more light on that. That study was conducted due to the fact that the City of Naperville Park District purchased that part of that property. When they purchased it they did the study and that's when some findings were made out there. Because of those findings, the Federal Government said to us to continue our project, we have to do an additional survey on the property that we are going to be impacted by our project. We did that study in cooperation with the University of Illinois; their Archeologist Department did it, that is the department that the State of Illinois uses when they do any arch surveys on any projects within the state. So we felt that they were very reputable in what they did. We could have gone forward and did it by a private firm, but we were suggested by the State of Illinois that this would be the way to go. We did that and they found nothing of any significance and because of that they said you can continue your project. Is there any other questions?

Member Konicki stated I have a question for both Mr. Gould and another one for Ms. Monroe. First, when you had an archeological study done, it was only for the footprint of the bridge, am I correct?

Mr. Gould replied that is correct.

Member Konicki stated the point the speaker was making is like 10% of the site is under our consideration this morning.

Mr. Gould replied the reason that area was picked was because that is the area that would be impacted the most by our project. The area, the size, the depth was all requirements by the feds, we did not pick the location, we did not pick the size.

Member Konicki stated please understand I was not aiming that as a criticism at you as if you were ignoring 90% because you are sneaky fellow. I just know that for your purposes that is all that you would have looked at. But in front of us this morning is also the other 90% and from the research apparently done in 94 and 95, the other 90% is pretty rich in artifacts so I am not sure that we can base our decision on your 10%. I understand why you as a road builder would build your decision based on that 10% but something different is before us this morning and that is the only point I want to make. Ms. Monroe, my question to you would be, when you

recommended against the landmarking of these sites, were you aware of the work that had been done and the artifacts that had been uncovered in the 94 and 95 era?

Ms. Monroe responded yes, I reviewed all the reports that have been referenced today. I also talked right before the Commission had conducted the public hearing just to make sure that I understood the findings of those reports and I definitely did a comparative analysis of those findings. The most current report is what my recommendation is based upon, there were not significant artifacts discovered at the site at that time.

Member Konicki replied I, of course, have made my comments on the most current report and I don't think it had the quality of investigation and certainly did not cover the site, it covered a little tiny portion so I can understand why you limited your opinion; you base it on the most recent report then you would have recommended against it. However, I am hearing a great deal of support from the more careful analysis that was done of the sites, a bigger area hand sifting that was done back in the early 90's. So I think that information certainly has been brought to our attention and we can't ignore it.

Member Moustis stated Ms. Monroe, this is for you. When someone submitted the application for the site to be considered for historical preservation, I assume that you looked at the entire site, just not the portions that was going to possibly be impacted by a road. Am I correct in that assumption?

Ms. Monroe responded absolutely, like any application whether it is zoning or landmark related, I look at the context of the area, our department does and we certainly look at how this is developed and certainly that plays into how I review.

Member Moustis stated so I am assuming then that your recommendation is based on the entire site, not just the part that was surveyed for a road project.

Ms. Monroe responded absolutely.

Member Moustis asked so you did look at the entire site.

Ms. Monroe responded I did look at the site and some of the farmsteads that were referenced on the nomination; the early Scott Settlement Site overlapped both parcels so I review those.

Member Moustis replied thank you.

Member Bilotta stated one quick comment and this is a County Ordinance and Procedure so I think it is something we need to look at as a Board. The owners of this property have not put this application through; it is somebody else that doesn't even own the property. I think there is an underlying perceived property rights here, where I could go to Member Brooks' house and say you know what, I am just going to put this application in and if I have the votes to get it done, I just significantly impacted what you could do with your house from that point forward. I think there is also an underlying issue there, taken aside the evidence was there or not, I think we have done our due diligence but it is something to keep in mind. There is definitely an issue there. Thank you.

Member Singer stated good morning Executive Walsh. There have been some comments here, other comments before the meeting related to the Forest Preserve District's role in this process so what I wanted to do is ask Executive Director of the Forest Preserve, Ms. Marcy DeMauro, if she could make a couple comments related to our roll in the process.

Ms. DeMauro stated good morning. There are three comments I wanted to make. First with respect to the timing of our land acquisition and we are certainly one of the property owners and not the only one who would be impacted by the project. The Forest Preserve prepared its land acquisition plans that included this property that we owned back in 1989. Routinely we provided information to local units of government as kind of a red flag when they do their planning to give us a notice of any projects that are planned. We were notified by the City of Naperville in 1990 that they intended to purchase a right-of-way for the 95th Street project so the County became involved in this later. But early on, for those of us that have been here that long, it was the City of Naperville that initiated the project before the County took it over. So we acquired that property, several parcels from 1991 and 1993 with the understanding that 95th Street would be going through. I guess the logical question would be, why would the Forest Preserve want to acquire property that they know a major road might be going through. We acquire lands for many different purposes. We have a scoring system that is called a Land Evaluation System, it is what our Citizens Advisory Committee does when they review new properties. It goes through this evaluation system. And a parcel of land is evaluated on a number of criteria. It is evaluated on a large part by the natural resources there, the significance of those resources are that there is some danger of threatened species, whether there are intact authentic natural communities and then there is a whole another set of criteria that looks at the property from a recreational planning, and a con-traditional planning criteria. So does it provide continuity, does it create recreational opportunities and in researching this property the reason this property was purchased was not for its outstanding natural features; in fact, those scored very low. The reason the property was purchased was because at that time and of course continuing to today, there has been a large effort by all of the communities starting up in Dupage County and down to Channahon to create the Dupage River Trail. So this was a key parcel that was a link. Basically we were closing a gap and that continuous greenway for this continuous trail system and we are actively working with our partners all the different local units of government along there to build sections of the trail. In fact, this section that would be impacted by the bridge, we are partnering with the Naperville Park District who actually construct what is called segment five (5) of the trail. I wanted to be very clear about that component of it. Lastly, the Forest Preserve did submit an official position to Ms. Monroe as staff representative on the Will County Historic Preservation Commission. Our position was that the Forest Preserve was not opposed to the landmarking of the two (2) sites. Because number one we felt, as Mr. Gould pointed out, one (1) was going to be missed entirely. The other one that would be impacted, we felt and we met several times with Mr. Gould and his staff, we felt that the staff was doing their due diligence to, if not avoid the impact then mitigate those impacts by doing a phase III archeological survey which meant excavation of anything remaining that the project would impact and those artifacts by law have to go to the Illinois State Museum. What we were opposed to, however, was the landmarking of the landscape because we felt there was no physical evidence to do that and we felt that it could affect our ability to continue the trail system which was the purpose that we purchased the property for. Thank you.

Executive Walsh asked if there were any questions.

Member Maher stated not a question per se; it is more of a comment. The Forest Preserve has been preserving land in this County for a very long time. And nominally from the preservation of land, it really has taken a huge effort to take a look at the historic perspective. That is why we have the iron works in Joliet. That is why we have Arm View, Riverview Farmstead up in Naperville and the idea that we are making votes on politics versus facts, I have a problem with that and I appreciate the staff and all of the work and energy you all do on a daily basis to give us the information in order for us to be able to make consistent decisions.

Member McPhillips stated I address the impartiality of the Board and the Forest Preserve, I think that is why we have Ms. Monroe, a professional on board historic preservations that reports to the County Executive to advise the County Board and she had recommended that it doesn't meet the criteria and I think it sets a bad precedent if we are not following our own ordinance and relying on our staff who are the professionals and I am not educated on Historical Preservation. Thank you.

Member Argoudelis stated I am just echoing Member McPhillip's comments, it is clear that all of the proper procedures that our ordinances require or that the Federal Government has requested of us, have been followed. So I think that it is important because when we look at historic preservation and historic significance of anything, I would like to preserve everything but we can't do that. That is why we have specific ordinances and guidelines as to what is significant and what is not significant. Growing up on a farm in Plainfield Township, we found arrowheads all of the time. But the earlier settlers have advised us that their Potawatomi main building was south of town along the Dupage River. These distinctions matter because preserving an area where the Potawatomi had their village versus preserving a farm that you have found a couple of arrowheads on are two very different things. Now with regards to these particular parcels, our staff reviewed them and followed their procedures and rules and they didn't find anything that significant. And if there was something at one time there that was significant, it has been destroyed as Ms. Monroe has advised and it is no longer there to be preserved. So, it is a careful balance. The fact that is was about farmstead, well, you know Pilcher Road's named after the Pilcher Family and there are all sorts of houses on that farmstead. We didn't preserve that and the farmstead that some of the residents have spoke today and that hasn't been preserved because we have specific ordinances to gauge the significance of sites. We follow those procedures; this site does not meet the criteria. We have done it in several different ways, through the University of Illinois, through our own staff, through the Federal Government requirements regarding the roadway. It doesn't meet the criteria and for us to adopt a..... to essentially go against our own ordinance and say we are going to call it significant anyhow, is to not follow our own ordinance. As a lawyer now, I will put my lawyer hat on, one shouldn't casually designate something historic, give it this designation because that also gives a platform for litigation to those who.....sorry I have to tie this in here, but to those who are purely against the bridge and therefore this may give a platform when it is not warranted but it may give a legal platform for litigation which would then cost the County a lot of money. So I don't think we should casually go into calling things historical and since we have done our homework and staff recommends against it, that is why I voted no against this at Land Use and I will vote no today.

Member Konicki stated I have questions before.....I will be in support of this and I would like to state why. I don't want to get into an argument.

Executive Walsh stated c'mon Member Konicki, please.

Member Konicki stated I think there has been a lot of hairsplitting this morning and I know that Ms. DeMauro said all of the Forest Preserve staff is not opposed.....I have a letter from the Forest Preserve saying that they support the designation of the site. The Naperville Park District supports the landmarking of the site; our Will County Historic Preservation Commission recommended supporting the sites. I understand that Ms. Monroe said that she looked at the whole site and she also very clearly said that she based her recommendation of denial on the most recent 2010 study which was, in my opinion, not a properly done study for purposes of deciding whether or not to landmark the site. So I am going to be a vote in support of landmarking this morning. Thank you.

Member Bilotta stated I just want clarification of the motion, is the motion in the positive.

Executive Walsh clarified yes; the motion is in a positive. The motion is to approve is what Member Weigel made the motion to be.

Member Bilotta replied that is why I will concur with staff and the committee and vote no.

Voting Affirmative were: Deutsche, Howard, Traynere, Konicki, Wilhelmi. Total: Five.

Negative votes: Bilotta, Adamic, Singer, Laurie Smith, Weigel, Dralle, Hart, McPhillips, Kusta, Maher, Argoudelis, Goodson, Brian Smith, Gould, May, Rozak, Zigrossi, Brooks, Stewart, Winfrey, Babich, and Moustis. Total: twenty-two.

RESOLUTION #11-260 IS DENIED.

Member Weigel stated that concludes my report.

Executive Walsh stated thank you very much.

FINANCE COMMITTEE **Edward Kusta, Chairman**

Member Kusta began good morning everyone, I would like to thank Member Weigel for a nice quick report this morning. I do have two reports to place on file.

1. Report from the Illinois Department of Revenue showing sales tax remitted to Will County for the month of June 2011 to be \$1,343,357.87. The RTA Tax received is \$1,609,683.56.

$$\$1, 343,357.87+ \$1,609,683.56 = \$ 2,953,041.43$$

2. Will County Monthly Treasurer Report, from Will County Treasurer Steve Weber, dated June 30, 2011.

Member Kusta made a motion, seconded by Member Brian Smith, to place the above Reports on file.

Voting Affirmative were: Bilotta, Adamic, Deutsche, Howard, Singer, Laurie Smith, Weigel, Dralle, Hart, McPhillips, Kusta, Maher, Traynere, Argoudelis, Goodson, Brian Smith, Gould, May, Rozak, Konicki, Zigrossi, Brooks, Stewart, Winfrey, Babich, Wilhelmi and Moustis. Total: Twenty-seven.

No negative votes.

REPORTS ARE PLACED ON FILE.

Member Bilotta made a motion, seconded by Member Laurie Smith, to approve Resolution #11-272.

Member Wilhelmi asked did anybody who is actually in the roofing or building industry, I don't know how much building work does "D" Construction do, get involved in the bidding.

Member Bilotta replied basically what it is, we had three (3) bidders pulled, one (1) of them only submitted back. There are three (3) bidders that generally do a lot of road work for us, so we have a good relationship with them and we know that they are qualified. When we are using more fuel tax forms, we have to follow and they all have to be IDOT Certified. That limits a lot of the pool from your general contractor. We questioned this at Committee, because we have to look at it and make sure that it has been all bid out. So I do have a copy of what was published in the IDOT bulletin. The biggest thing is that the IDOT bulletin.....this is kind of a little specialty.....

Member Wilhelmi clarified I have nothing against "D" Construction, they do good work, but I didn't know if they have done many roofs, so I was just curious of their qualifications.

Member Bilotta responded you know, that was our question too. But a lot of it is they can sub some stuff out but there is also a lot concrete work involved with this. Does that help? I was ready for you Member Wilhelmi.

Executive Walsh asked if Member Wilhelmi was satisfied.

Member Wilhelmi responded yes, I am.

Member Argoudelis stated very brief, how do we determine to change the speed limit, does the Highway Department make that call? Or do the people who live there contact us?

Member Bilotta responded actually it has to run through the Township Highway Commissioner and then we do a study to determine if it warrants it, we just don't change it because they want to change it. We do a study that shows it warrants it. So it is really at their request but only we do the study at the County and it runs through the County Highway Department too.

RESOLUTION #11-276 IS APPROVED.

Member Bilotta stated a quick note on that prior resolution, the City Administrator Mr. Tom Thanas is here as long as he can stick around and make sure if there is any questions from the County. Joliet is putting about \$3.9 million dollars into it and Will County is putting about \$7 million into it so we appreciate their cooperation.

Executive Walsh asked about how many for Will County?

Member Bilotta responded about \$7 million. That is phase III of a three phase project.

**Resolution for Additional Engineering Services by County
Under the Illinois Highway Code**

WHEREAS, the Public Works and Transportation Committee requested proposals for additional design engineering services (Phase II) for structure and appurtenant work thereto on County Highway 24 (Indiana Avenue) over Trim Creek, Section 01-00042-07-BR, County Board District #1; and

WHEREAS, said design engineering services are budgeted for in the current Highway Department budget.

NOW THEREFORE BE IT RESOLVED, that the County enter into a supplemental agreement for design engineering services (Phase II) with Willett, Hofmann, & Associates, Inc., 1000 Essington Road, Joliet, Illinois 60435, for Indiana Avenue Improvements over Trim Creek, Section 01-00042-07-BR.

BE IT FURTHER RESOLVED, that the compensation for the additional design engineering services be according to the schedule as listed in the supplemental agreement, increasing the upper limit of compensation from \$63,063.37 to \$109,413.17 paid for out of County Bridge Tax funds.

BE IT FURTHER RESOLVED, that the County Executive and the County Clerk of Will County are hereby authorized to execute said agreement subject to the review and approval by the Will County State's Attorney.

BE IT FURTHER RESOLVED, that the clerk is hereby directed to transmit four (4) certified copies of this resolution and agreement to the regional office of the Illinois Department of Transportation through the office of the County Engineer.

Adopted by the Will County Board this 18th day of August, 2011.

Member Bilotta made a motion, seconded by Member Gould, to approve Resolution #11-278.

Member Howard asked could I just get a brief description on the report.

Member Bilotta responded when the changes went through, the only question is it went through a review of IDOT and some things have changed. Everything we do we have to submit through them and they had some suggestions and changes. A lot of times, standards change within a small time frame but this is our lucky year (inaudible).

Member Howard stated was there some pedestrian traffic?

Mr. Bruce Gould stated Member Howard there were some additional federal requirements that we had to apply to and based on that we had to do this additional supplemental work. Just to let you know, 80% of that is being federally funded so that supplement is being paid 80% by the feds. They require the work but they are paying for a portion of it. As far as the pedestrians, it didn't really include any additional to the pedestrian route, this is just additional requirements as far as the design is concerned.

Member Dralle made a motion, seconded by Member Argoudelis, to approve Ordinance #11-287.

Executive Walsh stated we have two (2) speakers that have asked to speak, they have signed up through the County Clerk's Office. Mr. Tom Joseph or Mr. Jim Sim, would you like to speak on this? Please come forward.

Mr. Tom Joseph stated thank you Executive Walsh, State's Attorney, and State's Attorney Staff Ms. Tatroe, Ms. Manning. My name is Tom Joseph and I represent the Illinois Association and the Three Rivers Association of Realtors and I am joined by Mr. Jim Sim. We just wanted to speak very briefly in reference to the resolution that is before you. We were very pleased to be participatory in the process and I want to thank Chairman Dralle for that. I want to thank Member Moustis and Member Adamic, thank you both for your suggestions in this process. We had several concerns which we vented with Ms. Manning, Member Dralle, and Mr. Bruce Friefeld and I want to thank them for that. But what it essentially came down to for us was that we felt that if a citation was to be provided on the property rights side in reference to citations by Land Use in reference to property owners for the exterior inspection that could take place that a window period would be sufficient for notice from the time of citation to allow the property owner to try and address those issues before we would have to proceed to an adjudication proceeding. We were able to come up with a 30 day notice which would, we believe, help rectify 75-80% maybe even a larger percentage of that hopefully and not even have to allow it to get to a proceeding. I think that

is a win for the County and it is a win for the property owner, if that is the case. That was in 4308 in the new Chapter 43, and in 4310 we felt very strongly that a search and notice consent provision be inserted. I want to thank the State's Attorney's Office once again for rectifying that and coming up with some language that we were all comfortable with; so with those two (2) provisions we felt most of the concerns were addressed and we did have one (1) respectful disagreement and that was in reference to a \$50.00 administrative fee based upon a citation that could advance to a proceeding for each separate citation. But just in some of the dialogue that has been shared in Committee and so forth, I think the consensus word is that discretion will be conveyed for that process; so we were appreciative of that also. Seeing that those were our major provisions of concern on the property rights side, we understand that this also takes in public health and nuisance and some others that go beyond some of our concerns. At this point I just want thank our friends on both sides of the aisle. The Three Rivers Association of Realtors is grateful for the members of the County Board who are willing to share in some of our concerns. Mr. Sim is our Chairman of our Government Affairs Committee; he just wants to share some adjudication experience with you. Thank you very much.

Executive Walsh stated thank you.

Mr. Jim Sim stated I am the Chairman of the Government Affairs Committee of The Three Rivers Association of Realtors and a Realtor in Century 21 Pride in Frankfort and to speak real briefly to the adjudication part of this. I dealt with a rental property where a municipality said I wasn't cutting the grass on the property. They notified me in January of 2011 for a citation that I had supposedly had from April of 2010. I never received it so I fought it. They charged me a \$500.00 fine plus the cost of the cutting. It went before an arbitrator and adjudicator. The village could not come up with any documents where they had notified me so in lieu of that, the adjudicator said he would just charge me for the cutting of the grass even though I provided receipts from a landscaper that said the grass was being cut all summer long. But they removed the fine, they removed all the fines and the fees and just charged me for the grass cutting. So if I hadn't had the opportunity to go in front of an adjudicator, it would have been a much different result. So I just wanted to say that the 30 day notice as well as the adjudication process and due process is a very important part of property rights. Thank you.

Executive Walsh stated thank you Mr. Sim and thank you Mr. Joseph and thank you for your participation. It means a lot to us when you sit down with the Committees.

Member Dralle stated I would like to thank Mr. Joseph for his comments for his input. The process has been opened, it has been polished, it's been refined and I am anxious to move forward.

Executive Walsh stated do we have any other discussion?

Member Konicki stated I just want to personally thank Mr. Joseph and Mr. Sim for getting involved. They certainly acted in the public's interest and my experience by the Land Use Department is normally we do issue warning before we bring the hammer down. But it is always a comfort to have it in the ordinance and I think their careful reading of what we were proposing has accomplished that and they have stepped outside their normal interaction with this Board. I really think they did a public service this morning and I want to thank them.

Executive Walsh stated do we have any other comments?

Member Howard stated just real quick, real brief, a couple of comments. Basically I am from the eastern side of Will County and everybody knows that by now. And I have actually talked to a lot of the residents out there and I actually talked to the law enforcement that type of thing. I would just like some reassurance today, I just want to bring up this point. If this system has a problem with it, that it could be corrected in a timely fashion. (inaudible). Member Dralle has been very accommodating on it, one of the officers and this case we are taking something and adapting it to the whole County and there are areas of the County that we really don't need this type of system out there right now. So I do understand that, but I am still an advocate of fixing the system because actually we are creating another layer here and hopefully it just doesn't come self-sustaining where it becomes a necessity to fund this thing, if it isn't self-funding or if it isn't carried out and the intention is carried out in a different manner. I just wanted to bring that up, again I will be voting yes for this today and I thank the Chairman of the Committee and she was more than accommodating on it.

Executive Walsh stated thank you Member Howard. Is there any other comments?

Voting Affirmative were: Bilotta, Adamic, Deutsche, Howard, Singer, Laurie Smith, Weigel, Dralle, Hart, McPhillips, Kusta, Maher, Traynere, Argoudelis, Goodson, Brian Smith, Gould, May, Rozak, Konicki, Zigrossi, Brooks, Stewart, Winfrey, Babich, Wilhelmi and Moustis. Total: Twenty-seven.

REPORTS ARE PLACED ON FILE.

Member Gould presented Ordinance #11-291, Amendment to the Will County Code of Ordinances Chapter 114; Food Service and Retail Food Store Sanitation Ordinance. There was a public hearing held at Committee, if I could briefly summarize it. It was the recommendation of the Health Department that there be no increase of the current fees and that a 50% charge be levied against Governmental Entities Schools. Non profits and churches, soup kitchens and surplus food organizations would continue to be exempt. I might mention that the Ordinance also strengthens the enforcement policy, it raises the sanitation score from 60 to 70 for corrective action within 24 hours and also establishes that a sanitation score of less than 60 rather than currently 50, requires the immediate suspension of a food service or retail foods storage permit. Those are the changes.

PUBLIC HEARING FOR ALL LAND USE CASES IS OPENED AT 12:04 P.M.

Member Moustis stated for purposes of the public hearing, the County Clerk is required to keep the County Code of Ordinances and it is a big book and they add to it and they supplement it. About every 20 years or so, they have to go in there and totally redo the book. Basically, that is what this is. I don't know if County Clerk Voots, if you would like to make a comment? Just so everybody understands, this is something that is almost mandatory.

County Clerk Voots stated it is mandatory that each office has a copy of the book and as the resolutions or ordinances are changed, they have to update their book. It is wise to get it updated and have it looked at by each department. I have been work closely with each department and also I want to thank Ms. Mary Tatroe at the State's Attorney's Office, we have also been working closely with her. So I didn't do it alone, we did it together but also everybody is going to have a copy of the disk too, to save paper. Plus, all of the information is on my website too so you can go to my website and view it as every County Board meeting is passed, and ordinances have changes, we update it on a regular basis instead of waiting like 6 months or quarterly so it's done on a regular basis. I am very proud that we have gotten this done in two (2) months so I want to thank everyone for their participation.

Executive Walsh stated thank you County Clerk Voots. We are in public hearing, if there is anyone that would like to speak from the general public to ask questions in regards to the procedure here, they are more than welcome to step forward. Anyone from the general public?

Member Moustis made a motion, seconded by Member Adamic, to close Public Hearing for the purpose for Adopting the New Will County Code of Ordinances.

Ordinance #11-293

**ORDINANCE OF THE COUNTY BOARD
WILL COUNTY, ILLINOIS**

Repealing Section 151 of the Will County Code of Ordinances

WHEREAS, the Counties Code provides that the County has the power to pass ordinances regulating building and property maintenance within the unincorporated territory of Will County; and

WHEREAS, in or about September 1974 the Will County Board adopted Chapter 151 of the Will County Code of Ordinances regulating building, property maintenance and related activities; and

WHEREAS, subsequent to adopting Chapter 151, the Will County Board adopted Chapter 150 of the Will County Code of Ordinances also regulating building, property maintenance and related activities and has amended and updated Chapter 150 in and about 2001, 2003, 2007 and 2011; and

WHEREAS, after due public notice was published, a public hearing was held at the Executive Committee of the County Board on August 11, 2011 regarding the proposed repeal of Chapter 151 of the Will County Code of Ordinances; and

WHEREAS, as Chapter 150 is more recently adopted and contains more up to date regulations of building, property maintenance and related activities, it is in the best interests of Will County to repeal Chapter 151 in its entirety.

NOW, THEREFORE, BE IT ORDAINED, by the County Board of Will County, Illinois, that Chapter 151 of the Will County Code of Ordinances, attached hereto and incorporated herein as "Exhibit A", is repealed and of no force and effect.

BE IT FURTHER ORDAINED BY THE WILL COUNTY BOARD THAT:

Section 1: This Ordinance, and every provision thereof, shall be considered separable, and the invalidity of any portion of this Ordinance shall not affect the validity of the remainder.

Section 2: This Ordinance shall be in full force and effect upon its passage and approval as provided by law.

Will County Executive

Member Moustis made a motion, seconded by Member Rozak, to approve Resolution #11-294.

Member Traynere stated I had them in my packet but when I got here in the Board Meeting today I noticed there was a number of additional ones sitting on my desk and they have sections in them that are highlighted in red and I was just wondering is that a new change?

County Clerk Voots responded those were changes. Since I passed out the maps over at the Executive Meeting, all County Board Members got a packet of all 24 townships and I have been working closely with the County Board Members after they have received their packets. And there were some questions and concerns so I listened and we worked together and we also worked together with our GIS Dept., Greg, I want to thank him and I can't thank him enough for his help. But basically like I mentioned if there was something brought up like maybe a polling place was not as convenient for the voters to get to that location. We had to do some readjusting. It was also brought to my attention, Plainfield Township, that there was a situation that they could not get to the polling place, yesterday we had to work and add an additional precinct in Plainfield. So everybody will be receiving another township map of Plainfield. But there were some adjustments and there were some good points by our County Board Members and I know they were working with our Mayors, talking to them and talking to the people in their districts. I do appreciate the help from the County Board Members and who you were talking to. Like I said in the past and I will say it again, we basically did it by precinct numbers; 1,200 registered voters and 1,300 registered voters and now throughout the County we are going to be consistent of how many registered voters are at each precinct. There were some precincts that had only maybe 400

registered voters, now it will be consistent throughout the County. So this didn't just happen to only one (1) township, it happened like you will be able to see as Member Moustis reads all the resolutions. It happened to all 24 townships. So I know there was some changes but those were last minute that we received within the last few days. I believe the changes were done in red. Member Traynere, we were able to make the readjustment on the one matter that you came into the office about.

Member Traynere stated the three (3) I have put forward, I was under the impression on the response I got back from Ms. Judy Wiedmeyer from the County Clerk's Office that there would be no change whatsoever.

County Clerk Voots responded we were able to change the one.

Member Zigrossi stated I would just like to make a comment (inaudible), there was a change made to our district today at Grand Haven. The other thing if I could make a request, this actually has to do with the outreach that may be done for early voting. Other subdivisions -other senior active communities such as Grand Haven that are out there, if there is some way we can get information out to those voters to let them know about the early voting and encourage that to help (inaudible). Some communities have health issues and it is difficult for some of them to get to other polling places.

County Clerk Voots responded the last few Elections, we have been sending out a Voter Information Guide, one per household, and each resident is going to receive that again for this Election. The Voter Information Guide has a map of their polling place, it has a sample ballot and it also has all of the early voting locations and the times and the hours. So each household is receiving that Voter Information Guide because in the past we would only just be able to do it in the newspaper, but no offense, not everybody gets the newspapers. So we have to reach out to the residents. This way everyone is getting their sample ballot and believe me the last few Elections, we've had 1,500 people come in my office and voted and they were walking in with their Voter Information Guide because they are studying before they come and vote. They are being more educated now instead of waiting for the day.

Member Zigrossi stated if there was a way those communities that are like Grand Haven (inaudible).

County Clerk Voots responded once this gets passed now it is going to be my job to even educate residents even more so of the early voting locations. But like I said before, everybody will receive a new voter card in the mail this fall that will have their new polling place, all their districts and will receive a Voter Information Guide closer to the Election and before early voting starts. I am going to be doing constantly press releases and working on cable to get that word across. Any other questions?

Executive Walsh asked with your changes that you have made, how many precincts are we up to now.

County Clerk Voots responded 303, we only gained one (1) more. We only gained one more by working with the County Board Members.

Member Moustis stated I thought I was going to move this along.

County Clerk Voots responded well I had to get my two-cents in.

Executive Walsh asked so you basically adjusted within the precincts.

County Clerk Voots responded we tried to adjust but if we did adjust it, it would make some of the precincts way too high. So we had to add an additional precinct yesterday with the help of Greg and my staff.

Member Moustis stated so basically the County Clerk consolidated precincts; we have fewer precincts Countywide and makes the system a little more efficient. Many more people are early voting so I think absentee voting will actually make it easier for people to actually vote. And, I think it brings down our cost quite a bit.

County Clerk Voots responded \$200,000 and then early voting, anyone can request an absentee ballot by mail. They don't have to have a reason and the ballot will automatically be mailed right to their home. All of this information is on my website and you will be getting information in the mail closer to the Election.

Voting Affirmative were: Bilotta, Adamic, Deutsche, Howard, Singer, Laurie Smith, Weigel, Dralle, Hart, McPhillips, Kusta, Maher, Traynere, Argoudelis, Goodson, Brian Smith, Gould, May, Rozak, Konicki, Zigrossi, Brooks, Stewart, Winfrey, Babich, Wilhelmi and Moustis. Total: Twenty-seven.

**RESOLUTION OF THE COUNTY BOARD
WILL COUNTY, ILLINOIS**

Readjusting Election Districts in Florence Township

WHEREAS, due to the decennial redistricting, it has become evident to the County Board of Will County, Illinois, that there has been a need to adjust some Election Districts in Florence Township, and

WHEREAS, the County Board of Will County, Illinois, has determined that the boundaries of some Election Districts in Florence Township must be readjusted, renumbered, combined, or eliminated in order to better serve the voters of each District, and

WHEREAS, it is necessary that each proposed readjusted, renumbered, combined, or eliminated Election District shall be composed of contiguous territories and that they are in as compact form as can be had for the convenience of electors voting therein.

NOW, THEREFORE, BE IT RESOLVED, by the County Board of Will County, that in compliance with the aforementioned specifications, the following described Election Districts in Florence Township be newly readjusted:

Executive Committee
Resolution #11-300

**RESOLUTION OF THE COUNTY BOARD
WILL COUNTY, ILLINOIS**

Readjusting Election Districts in Green Garden Township

WHEREAS, due to the decennial redistricting, it has become evident to the County Board of Will County, Illinois, that there has been a need to adjust some Election Districts in Green Garden Township, and

WHEREAS, the County Board of Will County, Illinois, has determined that the boundaries of some Election Districts in Green Garden Township must be readjusted, renumbered, combined, or eliminated in order to better serve the voters of each District, and

WHEREAS, it is necessary that each proposed readjusted, renumbered, combined, or eliminated Election District shall be composed of contiguous territories and that they are in as compact form as can be had for the convenience of electors voting therein.

NOW, THEREFORE, BE IT RESOLVED, by the County Board of Will County, that in compliance with the aforementioned specifications, the following described Election Districts in Green Garden Township be newly readjusted:

LEGAL DESCRIPTION AMENDED

**RESOLUTION OF THE COUNTY BOARD
WILL COUNTY, ILLINOIS**

Readjusting Election Districts in Lockport Township

WHEREAS, due to the decennial redistricting, it has become evident to the County Board of Will County, Illinois, that there has been a need to adjust some Election Districts in Lockport Township, and

WHEREAS, the County Board of Will County, Illinois, has determined that the boundaries of some Election Districts in Lockport Township must be readjusted, renumbered, combined, or eliminated in order to better serve the voters of each District, and

WHEREAS, it is necessary that each proposed readjusted, renumbered, combined, or

eliminated Election District shall be composed of contiguous territories and that they are in as compact form as can be had for the convenience of electors voting therein.

NOW, THEREFORE, BE IT RESOLVED, by the County Board of Will County, that in compliance with the aforementioned specifications, the following described Election Districts in Lockport Township be newly readjusted:

Resolution #11-307

**RESOLUTION OF THE COUNTY BOARD
WILL COUNTY, ILLINOIS**

Readjusting Election Districts in New Lenox Township

WHEREAS, due to the decennial redistricting, it has become evident to the County Board of Will County, Illinois, that there has been a need to adjust some Election Districts in New Lenox Township, and

WHEREAS, the County Board of Will County, Illinois, has determined that the boundaries of some Election Districts in New Lenox Township must be readjusted, renumbered, combined, or eliminated in order to better serve the voters of each District, and

WHEREAS, it is necessary that each proposed readjusted, renumbered, combined, or eliminated Election District shall be composed of contiguous territories and that they are in as compact form as can be had for the convenience of electors voting therein.

NOW, THEREFORE, BE IT RESOLVED, by the County Board of Will County, that in compliance with the aforementioned specifications, the following described Election Districts in New Lenox Township be newly readjusted:

Executive Committee
Resolution #11-310

**RESOLUTION OF THE COUNTY BOARD
WILL COUNTY, ILLINOIS**

Readjusting Election Districts in Reed Township

WHEREAS, due to the decennial redistricting, it has become evident to the County Board of Will County, Illinois, that there has been a need to adjust some Election Districts in Reed Township, and

WHEREAS, the County Board of Will County, Illinois, has determined that the boundaries of some Election Districts in Reed Township must be readjusted, renumbered, combined, or eliminated in order to better serve the voters of each District, and

WHEREAS, it is necessary that each proposed readjusted, renumbered, combined, or eliminated Election District shall be composed of contiguous territories and that they are in as compact form as can be had for the convenience of electors voting therein.

NOW, THEREFORE, BE IT RESOLVED, by the County Board of Will County, that in compliance with the aforementioned specifications, the following described Election Districts in Reed Township be newly readjusted:

Resolution #11-311

**RESOLUTION OF THE COUNTY BOARD
WILL COUNTY, ILLINOIS**

Readjusting Election Districts in Troy Township

WHEREAS, due to the decennial redistricting, it has become evident to the County Board of Will County, Illinois, that there has been a need to adjust some Election Districts in Troy Township, and

WHEREAS, the County Board of Will County, Illinois, has determined that the boundaries of some Election Districts in Troy Township must be readjusted, renumbered, combined, or eliminated in order to better serve the voters of each District, and

WHEREAS, it is necessary that each proposed readjusted, renumbered, combined, or eliminated Election District shall be composed of contiguous territories and that they are in as compact form as can be had for the convenience of electors voting therein.

NOW, THEREFORE, BE IT RESOLVED, by the County Board of Will County, that in compliance with the aforementioned specifications, the following described Election Districts in Troy Township be newly readjusted:

**RESOLUTION OF THE COUNTY BOARD
WILL COUNTY, ILLINOIS**

Readjusting Election Districts in Wesley Township

WHEREAS, due to the decennial redistricting, it has become evident to the County Board of Will County, Illinois, that there has been a need to adjust some Election Districts in Wesley Township, and

WHEREAS, the County Board of Will County, Illinois, has determined that the boundaries of some Election Districts in Wesley Township must be readjusted, renumbered, combined, or eliminated in order to better serve the voters of each District, and

WHEREAS, it is necessary that each proposed readjusted, renumbered, combined, or eliminated Election District shall be composed of contiguous territories and that they are in as compact form as can be had for the convenience of electors voting therein.

NOW, THEREFORE, BE IT RESOLVED, by the County Board of Will County, that in compliance with the aforementioned specifications, the following described Election Districts in Wesley Township be newly readjusted:

Member Moustis made a motion, seconded by Member Wilhelmi, to approve Ordinance #11-318.

Member Konicki asked for the benefit of the public watching on cable tv and kind of a refresher course, can we have an explanation of the Enterprise Zone and why our rationale for expanding it in this case.

Member Moustis responded we have done this a number of times. Basically the expansion of this particular enterprise zone is not something that really affects the tax base for Will County residents. This relates to the abatement of sales tax on materials purchased within the enterprise zone. Primarily this is done for example Exxon Mobile, for a pollution control device, to make it more efficient and so forth. I think we have the same here, this will expand it for Midwest Generation. It will allow them to continue to expand and modernize that plan. A lot of that is for pollution control very often and the materials they buy they don't pay the state portion of the sales tax. They still pay the local portion of this purchase in Will County. I think it is a good way of getting refineries, generation plants, it is a good mechanism for them to invest in their facilities to modernize them and make them more environmentally friendly that is where much of the money goes. I think it is a good incentive and it doesn't really affect the Will County tax payer.

Member Konicki asked are they going to be making any upgrades other than those required by law.

Member Moustis responded I don't know. We do have representation here but the point is, before we get into that, even if they....let me point out, it is not always for those purposes. I have mentioned that very often it is used for those purposes but it is basically and every Board Member should look at it, this is an abatement back on sales tax for people within the enterprise zone. We have our intermodals in these enterprise zones so there are warehouses that get built and they don't have to pay the state portion of the sales tax. So I don't want to give anyone the impression that it is just for that. In this zone, the State of Illinois will not impose the state portion of the sales tax to help promote development and job creation. I think this is really their purpose. I don't want to misguide anybody, it is to get people or business to invest in these areas and therefore benefit Will County, not only with our overall perhaps assessment on real estate but it helps create jobs and opportunities in Will County.

Executive Walsh stated Mr. Mahoney is here as a representative, would the Board object to him coming forward and giving his interpretation?

Member Moustis stated I think I answered Member Konicki's.....

Executive Walsh asked Mr. Mahoney, do you have anything else you would like to offer? Mr. Mahoney responded really not.

Member Konicki stated I am going to be a no vote. I understand that apparently its the state that is losing money, but we are all state taxpayers. I haven't received this morning a rational of what good is going to come from this for anybody except Midwest Gen. so I will be a no vote on the roll call.

Executive Walsh asked are there any other questions?

Voting Affirmative were: Bilotta, Adamic, Deutsche, Howard, Singer, Laurie Smith, Weigel, Dralle, Hart, McPhillips, Kusta, Maher, , Argoudelis, Goodson, Brian Smith, Gould, May, Rozak, Zigrossi, Brooks, Stewart, Winfrey, Babich, Wilhelmi and Moustis. Total: Twenty-five.

AMENDING THE DES PLAINES RIVER VALLEY ENTERPRISE
ZONE INTERGOVERNMENTAL AGREEMENT

WHEREAS, the County of Will is a party to the Des Plaines River Valley Enterprise Zone Intergovernmental Agreement, which is in full force and effect; and

WHEREAS, the Des Plaines River Valley Enterprise Zone Board of Directors held a public hearing on the proposed expansion of the Enterprise Zone and unanimously approved a recommendation to designate additional land in the Zone; and

WHEREAS, pursuant to 20 ILCS 655/1 & 5.4, the County of Will finds that the parcels described in Exhibits 1 and 2 and schematically depicted in Exhibit 3 to the Amendment to the Des Plaines River Valley Enterprise Zone Agreement attached as Exhibit A hereto conform with qualifications for designation, namely a) contiguous area; b) comprises sufficient area; c) is a depressed area, defined as an area in which pervasive poverty, unemployment and economic distress exists; and d) is entirely within either a municipality, county, or combination thereof; and

WHEREAS, the County further finds that expansion of the Enterprise Zone will serve the best interest of the County by promoting economic development; and

WHEREAS, it appears that the City of Joliet, City of Lockport, Village of Rockdale and Village of Romeoville, area willing to enter into an agreement attached hereto and incorporated herein.

NOW THEREFORE, BE IT ORDAINED BY THE COUNTY EXECUTIVE AND COUNTY BOARD OF WILL COUNTY, ILLINOIS, AS FOLLOWS:

SECTION 1. Upon the execution by all parties of the documents in a form substantively similar to those attached hereto, Section 2 of the Des Plaines River Valley Enterprise Zone Intergovernmental Agreement, as amended, is hereby amended by the Amendment to the Des Plaines River Valley Enterprise Zone Intergovernmental Agreement, which is attached hereto marked Exhibit A and by reference made a part hereof.

SECTION 2. This Ordinance and every provision thereof, shall be considered separable; and the invalidity of any section, clause, paragraph, sentence or provision of the Ordinance shall not affect the validity of any other portion of this Ordinance.

SECTION 3. All Ordinances or parts of Ordinances in conflict herewith shall be and the same are hereby repealed.

SECTION 4. This Ordinance shall be in effect upon the approval and certification of the area described in Exhibits 1 and 2 to the Amendment to the Intergovernmental Agreement attached as Exhibit A by the Department of Commerce and Economic Opportunity of the State of Illinois and upon its passage, approval and recording, according to law.

SECTION 5. The County Executive is hereby directed to execute the Amendment to the Des Plaines River Valley Enterprise Intergovernmental Agreement to effectuate this expansion.

Executive Committee
Resolution #11-322

**RESOLUTION OF THE COUNTY BOARD
WILL COUNTY, ILLINOIS**

**RESOLUTION ESTABLISHING A PHARMACEUTICAL TAKE-BACK PROGRAM BETWEEN
WILL COUNTY AND THE VILLAGE OF MOKENA**

WHEREAS, the United States Geological Survey conducted a study in 2002 sampling 139 streams across 30 states and found that 80 percent had measurable concentrations of prescription and nonprescription drugs, steroids, and reproductive hormones; and

WHEREAS, exposure even to low levels of drugs, has been shown to have negative effects on fish and other aquatic species and may have negative effects on human health; and

WHEREAS, in order to reduce the likelihood of improper disposal of drugs, it is the purpose of this Resolution to establish a program through which the public may return and ensure the safe and environmentally sound disposal of drugs and may do so in a way that is convenient for consumers and cost effective for retailers; and

WHEREAS, in 2007, Will County was provided pharmaceutical collection containers from the Illinois Environmental Protection Agency (hereinafter referred to as the IEPA) in order to collect unwanted medication (excluding narcotics) from citizens, for the purpose of cooperative disposal funding of all pharmaceuticals collected by the County through select pharmacy retail

outlets, special collection events or through County Departments from members of the public, including Will County residents; and

WHEREAS, the Village of Mokena maintains a police department that is authorized by the United States Drug Enforcement Agency (DEA) to take back controlled substances; and

WHEREAS, Article VII, Section 10, of the 1970 Constitution of the State of Illinois encourages and provides for units of local government to create cooperative agreements with other units of government agencies, business and non-profit groups; and

WHEREAS, the County will provide additional funding for promotion of this Pharmaceutical Take-Back collection program.

NOW, THEREFORE, BE IT RESOLVED BY THE WILL COUNTY BOARD AS FOLLOWS:

Section 1: General Program Description

The Will County Department of Land Use, Division of Resource Recovery & Energy will work with the IEPA to provide consolidation containers to the Village of Mokena for the deposit of over-the-counter and prescription medications collected from residents (excluding narcotics). The Village of Mokena will notify Will County Land Use, Division of Resource Recovery & Energy when the containers are nearly full and work with County staff to bring them to a County one-day HHW Collection or to utilize the IEPA's designated contractor for disposal and delivery of new containers.

Section 2: Promotion of Program

The Will County Land Use, Division of Resource Recovery & Energy will print flyers to be distributed to residents by Village of Mokena. Press releases will be done several times a year. Information about this program will be included on flyers for other collection events and information will be placed on the Division of Resource Recovery & Energy section of the County website. Village of Mokena will also advertise or otherwise inform residents to the program.

Section 3: Duration of Program

The program will begin by September 1, 2011, and continue until participation is stopped by the IEPA or funding is unavailable through the Village or County. The program will be evaluated on a quarterly basis for number of participants, amount of material, cost of disposal/promotion and any break-down of the types of material supplied by the IEPA contractor. If this pilot program is successful, County staff will work with the IEPA to develop additional sites for the convenience of residents.

RESOLUTION #11-325 IS APPROVED.

Member Moustis stated that concludes the resolutions but before we get to appointments, I would like to request that we remove the appointment for this month and bring it back next month and we can just table it for the Joliet Port Authority. There seems to be some confusion at the very end, exactly how appointees are put on the Board, specifically, first we had the wrong statute quoted on what we originally received but then somebody contacted the County Board Office to request clarification on that there is a political division to this Board, which I wasn't aware of. There has to be an equal number of Republicans and Democrats on the Board. Some appointments require a party affiliation. I don't know if this is one of those appointments or not that has to have a party affiliation. So I would ask that we just delay it for a month so we can get clarification.

Member Moustis made a motion, seconded by Member Adamic, to remove the appointment for the Joliet Regional Port District - Mr. Jim Klick and table it for next month (September).

Voting Affirmative were: Bilotta, Adamic, Deutsche, Howard, Singer, Laurie Smith, Weigel, Dralle, Hart, McPhillips, Kusta, Maher, Traynere, Argoudelis, Goodson, Brian Smith, Gould, May, Rozak, Konicki, Zigrossi, Brooks, Stewart, Winfrey, Babich, Wilhelmi and Moustis. Total: Twenty-seven.

APPOINTMENTS BY THE COUNTY EXECUTIVE ARE APPROVED.

Member Moustis stated that concludes my report.

Executive Walsh stated very good report.

**ANNOUNCEMENTS BY COUNTY BOARD CHAIRMAN
James Moustis**

Member Moustis stated well we had a little longer meeting than we usually have but it was productive and it is nice to hear different view points. I would like to point out that most schools started this week. Be careful with your driving, especially when they are going to school and when they are coming home. Be aware that there is a lot more kids on the street and don't pass any of those school buses up with that sign out because they will get you. So be careful. For us White Sox fans they keep giving us hope, but they keep kind of yanking it away so keep hopeful and for the Cubs fans, there is always next year.

Thank you everyone, have a great day.

**ANNOUNCEMENTS BY LEGISLATIVE MAJORITY LEADER
Jim Bilotta**

Member Bilotta stated last meeting I had some issues with the communication between the CVG Offices and the County Board for a meeting. I just wanted to let everybody know that Executive Walsh and I talked and we got through this and we are being proactive in this. (inaudible). On another note, it was a tough go on this adjudication thing for a lot of people, it is another layer of Government but I think if it is done right, it will definitely benefit Will County so if we can all keep an eye on that. That is about it. Enjoy the day.

**ANNOUNCEMENTS BY LEGISLATIVE MINORITY LEADER
Walter Adamic**

Member Adamic stated thank you Executive Walsh and fellow Board Members good afternoon. As I mentioned earlier, the passing of Dr. Gena Prouix, the President of Joliet Junior College, our hearts are heavy with that and our thoughts and prayers go out to her family and the family of the staff and so forth at Joliet Junior College. In addition to that, between now and the next Board Meeting, there will be the 10 Year Anniversary for 9/11 attacks in New York and I think there is a resolution (inaudible) asking that communities and churches and different institutions throughout the Country ring bells and so forth. I think that anybody who was there at that point either in New York or even in our own homes, we all knew where we were at, at the time and what we were doing or got a call and saying, "hey, we are being attacked". Keep the families of those that suffered through that tragic event as well as our first responders who helped out, in your prayers. I know we are stronger as a Country it is unfortunate that those types of events occur. I just thought it would be good to mention that we would celebrate that time as a reflection.

Executive Walsh stated thank you Member Adamic.

Member Laurie Smith stated just a quick comment here, since the female caucus doesn't meet monthly, I would like to say today for the last time, "the female caucus is having lunch today so I will see all of you at The Department."

Executive Walsh asked is some of that discrimination.

Executive Walsh stated one last comment with all of the construction that has been going on, it is good to see all of the construction that is going on in Will County. Just as a friendly reminder, a new law was passed that when you ride through work zones, the speed limit drops down to 45 mph, also, don't get caught being on your cell phone in a work area. You can get ticketed for being on your cell phone if you are driving through a work zone that is down to 45 mph. So be careful.

Executive Walsh stated with that we will adjourn until Thursday, September 15, 2011 at 9:30 a.m.
